BY MAGNETIC AND PRINTING TELEGRAPHS.

From Washington. TEAPOT, RTC. WASHI GTON, June 3, 1856.

Several days ago Count Sartiges received, through the Post Office, a letter from a Washington correspondent, treating of the settled antipathy of foreign governments towards the United States, as manifested by the conduct of foreign representatives in their intercourse with society and our public men, and which letter was superagainst our government, and especially against the Secretary of State at a dinner recently given by Count Sartiges. The envelope enclosing the newspaper in question bore the seal of the State Department. On Saturday Count Sartiges called on Mr. Marcy, indigmantly complaining of the insult, and demanting tha ed author be punished, intimating that, in the event of failure to do this, he would demand his passports. Mr. Marcy, of course, di avowed all knowledge cr responsibility concerning the letter, and expressed regret that anything had happened to occasion offence. Here was a quandary; but Count Sartiges was apparently satisfied, and the Secretary relieved from his uppleasant position by the au hor, who was a government employe, but who did not send the letter to Count Sartiges, promptly resigning his office.

Opening of the Paterson and New York Plank Ro

The new plank road, which has just been completed from Hoboken and Paterson, a distance of fifteen miles was opened yesterday, and the event, which is one of no ordinary importance to that part of New Jersey through which it runs, was celebrated in appropriate style by the president, the directors and a company of invited gues is. The construction of the road was commenced about three years ago, and although carried on, as we learned, under many difficulties, it is now one of the best highways in the State, and will, we have no doubt, be Moerally patronfzed by the travelling public. The President is Mr. Henry V. Butler, who is entitled to the credit of having conneived the work and of urging it on to a successful completion. The cost was about one hundred and fifty thousand dollars, but it is expected that before two

years it will pay a very fair interest on the investment. The company assembled at nine o'cleck, by appoint. ment, at the New York Hotel, where they found a liberal supply of carriages provided for them. After half an hour's delay, caused by waiting for absent friends, we started from the hotel, and arrived in seasonable time at the Hoboken ferry station, foot of Christopher street. Among those who accompanied us were Governor Price f New Jersey, Simeon Draper, Henry V. Butler, Presi-ent of the read, Cyrus W. Field, Rev. Henry Field, J. S.

[Correspondence of the St Louis Republican.]

LIDEREDEROR, May 16, 1866.

By intelligence just received from Commissione? (or Indian Agent) Robinson, it appears that on Friday night last eight pre-slavery man were killed by a company of abolitionists on Pottawatomic creek. It is said that they were an organized band who did the deed, and have determined for some time past, at a proper hour, to wreak their vengeance upon any opponents of their views. Three of the men killed were named Doyle, three Sherman, and of the other two, one was named Whitman. What was the immediate exciting cause we have not learned. We had sincerely hoped that after the little violence accessarily attendant upon the exceedion of the law in and around Lawrence, of which you have been already apprised, we should hear nothing further of bloodched, but the spirit of revenge and opposition to good order and the peaceable enforcement of the law is not easily quelled, and we may yet have to record acts of a nature similar to the above. The ishabitants of Pottawatomic creek have sent up to Governor Shannon for sid to protect themselves and their property from further violence. It would be lamentable that this should be the commencement of a series of outbreaks and disturbances that would only end with the severance of our Union. We look for better things.

From an authentic source we learn that all is quiet in and around Lawrence, Lacomp on and Franklin. United States troops have been sent to each of these places, and we apprehend no further violence. The law will now be enforced, and the prisoners detained at Lecompton have the benefit of a fair trial. If demagogues and office seckers were kept from this country, peace, in a little while, would be restored.—The great mass of the people are disposed to attend to the resular avocations of life, if let alone, and we trust that the agitators who so ingioricusly fee at the time of danger, and lett those duped by them to suffer, will
